PROFILE

BSc Information Technology student with a strong academic foundation in software development, systems design, and networking. My academic training has equipped me to build efficient, scalable, and user-focused applications. I am highly motivated to apply my technical expertise within a high-performance environment, contributing to innovative digital solutions while continuously developing as an IT professional.

EDUCATION

North-West University – Vanderbijlpark Campus

Bachelor of Science (BSc) in Information Technology

- Expected Completion: November 2026

RELEVANT ACADEMIC PROJECTS

UniLift Student Transportation Management System | 2025

- Developed a full-stack university transportation management system using Node.js, MySQL, and RESTful APIs, enabling students to request rides while allowing administrators to manage drivers, vehicles, and transportation requests.
- Designed and implemented responsive dashboards with CRUD functionality, role-based authentication, real-time ride status updates, and reporting features to streamline ride allocation and improve operational efficiency.

Office Network Design and Implementation | 2026

- Designed and implemented a secure enterprise network using Cisco Packet Tracer, configuring VLANs, inter-VLAN routing, DHCP, NAT, ACLs, and ASA firewalls to support a scalable multi-department office environment.
- Engineered a collapsed core network architecture with redundancy, network segmentation, SSH remote management, and security controls, improving network performance, reliability, and secure connectivity across wired and wireless devices.

CORE COMPETENCIES

- | | | |
|-----------------|-------------------|-----------------------|
| • Adaptability | • Time Management | • Team Collaboration |
| • Communication | • Problem-solving | • Continuous Learning |

TECHNICAL SKILLS

Programming: Java, Python, C++, C#

Backend & APIs: Node.js, Express.js, RESTful APIs

Frontend: HTML, CSS, JavaScript, TypeScript, React, Next.js.

Database: MySQL, Oracle SQL, MongoDB.

Development Tools: GitHub, Visual Studio Code, Visual Studio, Packet Tracer.

CERTIFICATIONS & ACHIEVEMENTS

- Introduction to Cybersecurity Certificate – Cisco Networking Academy(2025)
